## WB AMBER

### WATER BASED SOLVENT DETERGENT

WB Amber is an alkaline amber foaming liquid cleaner containing solvents, grease cutters, emulsifiers and penetrants for efficient oil and grease removal. It can be mixed with water for lowest usage cost versus efficiency. WB Amber, being an extremely versatile product, can be used safely on most surfaces for removing a wide variety of soils.

It is specifically designed for use on:

- Greasy floors especially the type encountered in food factories and specifically acid resistant tiles.
- Kitchens for cleaning stoves, tiles, working surfaces, sinks etc.
- Bathrooms for bath surfaces, tiles, showers etc.

WB Amber can be applied by high pressure and steam cleaning equipment, or simply by hand with the aid of a cloth, mop or brush.

### ADVANTAGES

- Economical – concentrated formula.
- Free rinsing.
- High foaming.
- Easily dispersed into foam, high pressure and steam cleaning equipment.
- High solvency.

### USE DIRECTIONS

For general purpose cleaning and degreasing

WB Amber can be diluted 10 – 20mls per litre (1 – 2%) preferably with warm water (approx. 50 deg.C) depending on the severity of soil to be removed.

- High pressure cleaning - Use at 10 – 20mls per litre water (1 – 2%).
- Steam cleaning - Use at 10 – 20mls per litre water (1 – 2%).

## TECHNICAL DATA

- Appearance : slightly hazy amber liquid with solvents, mild alkali, wetting agents, emulsifiers and penetrants.
- S G : 1,03 approx.
- Ph 20% sol.: 11,2
- Stability : stable to continued freeze/thaw cycles.

## NOTE

Because WB Amber contains free fatty alkalinity, care should be taken on painted surfaces. Aluminium surfaces may become dull after continued cleaning with WB Amber.

## SAFETY PRECAUTIONS

WB Amber contains alkaline material. Avoid contact with eyes and prolonged contact with skin. In the case of accidental contact, rinse freely with water and obtain medical attention.
