SCOUREX

SCOURING POWDER

Scourex is a general purpose scouring powder used for many applications where normal soft detergents will not remove soils. It is a combination of the finest grade of crystalline calcite, together with anionic wetting agents and penetrants to give the best cleaning results. Scourex does not contain silica; thereby it does not present a health hazard as would normally be caused by scouring agents containing silica flour.

PROPERTIES

- Appearance : White powder.
- pH (10%) : N/A.
- S.G : N/A.
- Stability : Stable to continued freeze / thaw cycles.

FEATURES

1. Economical concentrated formula

USE DIRECTIONS

Sprinkle Scourex onto the area to be cleaned. Add hot or cold water, rub well with a cloth or brush. When clean, rinse liberally with water.

NOTE: In common with all scouring agents, Scourex should be used cautiously on high gloss or soft surfaces where its continued use may cause scratching or loss of shine.

SAFETY PRECAUTIONS AND FIRST AID

- EYES : In the case of accidental eye contact, rinse freely with water and obtain medical attention.
SKIN : Wash off with water.
INGESTION : Give milk to drink. Seek medical attention.
INHALATION : Move to fresh air.
NOTE : DO NOT MIX WITH ANY CHEMICALS.
REF : SCOUREX001
DATE : 4 MARCH 2012
