TECHNICAL DATA SHEET

AUTO DISH "P"

INDUSTRIAL DISHWASHING RINSING ADDITIVE

AUTO DISH "P" is a high caustic, chlorinated detergent powder for use in industrial and domestic dishwashing machines in which the machine parts encountering the wash solution are of stainless-steel construction.

AUTO DISH "P" is essentially non-foaming and is excellent for the removal of protein, gravy and egg stains. The modern formulation contains the essential phosphates so that it has the ability of soften water and to provide excellent emulsification and dispersing of the food soils, as well as helping to hold the soils in suspension so that they can be rinsed freely from the dish surfaces.

AUTO DISH "P" contains organic chlorine to promote free rinsing and help eliminate water spotting. In addition, this chlorine ingredient helps break down protein type soils which are then more easily removed by the detergent which in turn leaves the dishes and glassware spot free. Chlorine will also contribute to sanitizing.

PROPERTIES

- | | |
|----------------|------------------------------|
| 1. APPEARANCE: | Powder |
| 2. ODOUR: | Slight |
| 2. pH (10%): | Greater than 13 |
| 3.SOLUBILITY: | Completely soluble in water. |
| 4. RINSING: | Good Risibility |

FEATURES

1. Effective in hard and soft water
2. Low foaming
3. Emulsifies oils and greases
4. Good rinsability
5. Cost and labour effective

USE DIRECTIONS

Use as per the recommended dosage of the supplier of the automatic dosing equipment.

SAFETY PRECAUTIONS AND FIRST AID

- EYES:** Rinse cautiously with water for 15 minutes. Remove contact lenses if present and easy to do. Continue rinsing. seek medical attention if irritation occurs. Use face shield or goggles when Handling concentrates.
- SKIN:** Use gloves when handling concentrate. Product is corrosive to human tissue. Remove contaminated clothing and wash well with water. seek medical advice if skin is broken.
- INGESTION:** Give person large quantities of water or milk to drink and seek medical attention
Immediately DO NOT INDUCE VOMITING
- INHALATION:** No risk

NOTE: DO NOT MIX WITH ANY OTHER CHEMICALS.

Store in a dry safe place away from children.
